

Request: \$11,500,000 to plan and construct a six field soccer complex with lights on 42-acres of City-owned property located in Merced, California.

Description:

Design and built a state-of-the-art soccer complex with six playing fields with lights, restrooms and parking to provide practice and playing opportunities for our under-served youth population. The field would have a state-of-the-art irrigation system to conserve water, a parking lot with a permeable surface to help recharge groundwater, and lights to provide winter practice and playing opportunities.

The project would include the following (not all inclusive):

1. Six playing fields and two practice field suitable for play in ages ranging from 8 to 18 year groups
2. Energy-efficient field lights for the fields and state-of-the-art irrigation system and timing controllers to maximize water use and conserve water.
3. Parking lots with permeable surfaces, with lights for safety.
4. Restrooms to serve the players and fans.
5. Concession stand to serve players and fans and provide employment opportunities for our youth.
6. Bleachers for fans on select fields and picnic shelters to provide shade for teams and a gathering place for players, fans and families.
7. Landscaping, with extensive tree plantings, for the surrounding areas.
8. Final design and plans for the complex.

Necessity:

Merced, California is home to more than 30,000 youths. Gangs actively recruit our young population and there are more than 25 gangs in the City. Many recreational opportunities are unavailable to them due to low family incomes. There are more than 4,000-plus youths in organized soccer leagues in the City, and one-league is based in the heart of the City's low income population. Soccer play is dispersed on playgrounds, school yards and even baseball playing fields because of the need. And soccer is growing in popularity.

Beneficiaries:

- Merced youth
- Merced residents and businesses
- Educational and job training agencies
