

# SR-99 SHOPP BRIDGE REPLACEMENT

## TRAFFIC HANDLING PLAN

08/05/2011

Phase 1: Construct median deck and road embankment – Should be completed Aug. 16, 2011

Phase 2: About 6 months (by end of December 2011)

- **Aug. 16, 2011:** Northbound SR-99 traffic will be diverted to new median paved roadway
  - Speed limit set to 45 mph
  - K-rails and no shoulders
- New northbound SR-99 lanes will be constructed
- Northbound 16<sup>th</sup> Street Onramp will be constructed
- **WHEN** will 16<sup>th</sup> Street be closed to traffic for **northbound bridge construction**? August 4<sup>th</sup>, night only 8PM – 6AM, for about a week. (Open in day) NB 16<sup>th</sup> on-ramp will be closed another 6 – 8 months.

Phase 3: By mid-late summer 2012

- Shift northbound SR-99 traffic back to new northbound lanes
- Divert southbound SR-99 traffic to median paved roadway
- New southbound SR-99 lanes will be constructed
- Southbound 16<sup>th</sup> Street Onramp will be constructed
- **WHEN** will 16<sup>th</sup> Street be closed to traffic for **southbound bridge construction**? In about 8 months, for nights only, for about a week. SB On Ramp will be closed for about 6 – 8 months

Will SR-99 (northbound and southbound) lanes be **closed**? If so, **when (dates/times)**, and **how long a duration**? Full closures of 99 are short durations only – night work. Hours SB 11PM – 5 AM Sunday – Thursday. Occur only as needed for construction and we will notify a week in advance.

---

### **NOTICE: 08/05/2011**

99/NB detour transition (traffic switch) has been rescheduled for **August 16, 2011**.

### **NOTICE: 07/28/2011**
