TOTAL AFFECTED PARCELS:	109	106					

Source: ARWS, 2008; MCAG GIS Database, 2008.

Notes: This list of affected parcels is a preliminary list, based on preliminary designs of the AME provided for informational purposes. It is possible that the number of parcels may change during later phases of project design. During the later phases of project design and refinement, MCAG will make an effort to reduce effects to properties to the extent feasible. For the majority of the parcels shown, effects would be to a portion of the parcel, rather than to the entire property. After selection of a preferred alternative, the project design would be further refined to determine the total area of impact to each parcel.

* Mailing addresses for each affected parcel are used. In some cases, the mailing address for the parcel property owner may not be the address for the affected parcel.

** Parcel not found in MCAG GIS Database.
