

**Request:** The City of Dos Palos would like to create a walk path that connects Scout Park to O’Banion Park and the soon to be Dos Palos Library. In addition, the traffic bridge that leads to the O’banion Park is leaking and in need of replacement.

**Description:** The Downtown Distric has no improved walking paths that would connect that District to the O’Banion Park and the new site for the Dos Palos Library. In addition, the traffic bridge that leads to the O’Banion Park and the new site for the Dos Palos Library is the only access to residents west of the canal. This is the heart of our city and we would like to provide a safe and accesible way to get to and from these facilities.

**Necessity:** This project connects the City to the County and provides access to the Scout Hut, Scout Park, Del Hale Hall, O’Banion Park, and the new site of the Dos Palos Library.

**Funding request: \$3,000,000**

This request includes replacing the traffic bridge, and constructing an accessible path that connects the City to the County and the services each provide.
